Subpart A—General

§ 728.1 Mission of Navy Medical Department facilities.

The primary mission of Navy Medical Department facilities is to provide medical and dental care for members of the Navy and Marine Corps and for members of the other uniformed services who may be sick, injured, or disabled. In addition, Navy Medical Department facilities may provide medical and dental care to dependents of military personnel, to members not on active duty, and to such other persons as authorized by law, U.S. Navy regulations, and Department of Defense directives. These authorizations also provide that Navy Medical Department facilities may be called upon to furnish medical and dental care, under laws of humanity or principles of international courtesy, to civilians and to other persons not otherwise entitled to medical and dental care.

§ 728.2 Definitions.

Unless otherwise qualified in this part, the following terms, when used throughout, are defined as follows:

(a) *Active duty*. Full-time duty in the active military service of the United States. This includes full-time training duty; annual training duty; and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned. It does not include full-time National Guard duty.

(b) *Active duty for training*. A tour of active duty for reserves for training under orders that provide for auto-

matic reversion to non-active status when the specified period of active duty is completed. It includes annual training, special tours, and the initial tour performed by enlistees without prior military service.

(c) *CHAMPUS*. Civilian Health and Medical Program of the Uniformed Services.

(d) *Catchment area*. A specified geographic area surrounding each Uniformed Services Medical Treatment Facility (USMTF) or designated Uniformed Services Treatment Facility (USTF). In the United States, catchment areas are defined by zip codes and are based on an area of approximately 40 miles in radius for inpatient care and 20 miles in radius for ambulatory care. Zip codes designating such areas in the United States are specified in Volumes I and II of the Military Health Services System (MHSS) Catchment Area Directory. Catchment areas for facilities outside the United States are defined in Volume III of the MHSS Catchment Area Directory. These directories exclude certain areas because of geographic barriers.

(e) *Chronic condition*. Any medical or surgical condition marked by long duration or frequent recurrence—or likely to be so marked—which, in light of medical information available, will ordinarily resist efforts to eradicate it completely; a condition which needs health benefits to achieve or maintain stability that can be provided safely only by, or under the supervision of, physicians, nurses, or persons authorized by physicians.

(f) *Civilian employee*. Under 5 U.S.C. 2105, a nonmilitary individual (1) appointed in the civil service, (2) engaged in the performance of a Federal function, or (3) engaged in the performance of his or her duties while subject to the supervision of The President, a Member or Members of Congress, or the Congress, a member of a uniformed service, an individual who is an employee under 5 U.S.C. 2105, the head of a Government controlled corporation, or an adjutant general designated by the Secretary concerned under section 709c of title 32. Included are justices and judges of the United States, appointed and engaging
